

## NARROW ALUMINUM SCAFFOLDING SYSTEM

- Scaffolding Width : 750mm
- Scaffolding Length : 1800mm, 2500mm and 3000mm
- Working Height : 4500mm, 13450mm
- Loading Capacity : 200 kg

### Features :

- The single-width scaffolding tower fits a single platform per level and is ideal for accessing heights where space is constrained.
- Option to work at several heights and one time, by using additional platforms
- Minimal storage space, due to less number and size of parts

### Application:

- Installation works
- Maintenance
- Ceiling and A/C work
- Painting contractors
- Construction work
- Industrial use
- Cleaning jobs
- Shafts and narrow work area

## WIDE ALUMINIUM SCAFFOLDING SYSTEM

- Scaffolding Width : 1350mm,
- Scaffolding Length : 1800mm, 2500 and 3000mm
- Working Height : 4500mm, 13450mm
- Loading Capacity : 200 Kg

### Features:

- Ladder frame allows easy ascent to the top
- Light weight, easy assembly/ disassembly method
- Option to work at several heights at one time, by using additional platforms

### Application:

- Installation works
- Maintenance
- Ceiling and A/C work
- Painting contractors
- Construction work
- Industrial use
- Cleaning jobs

## STAIRWAY ALUMINIUM SCAFFOLDING SYSTEM

- Scaffolding Width : 1350mm and 1900mm
- Scaffolding Length : 1800mm, 2500mm
- Working Height : 4500mm, to 12350mm

### Features:

The stairway scaffolding provides optimum safety owing to its staircase system, along with handrail feature. It is ideal for large load capacity climbing in addition to allowing access to elevated heights.

### Application:

- Installation works where hoisting materials is difficult or dangerous For highest safety ascent

## EXTRA WIDE ALUMINIUM SCAFFOLDING SYSTEM

- Scaffolding Width : 1800mm and 2500mm
- Scaffolding Length : 2500mm
- Working Height : up to 12300mm

### Features:

- Platform with wide working area
- Convenient and flexible for material handling

### Application:

- Best equipment for more workers.

## EXTRA REACH ALUMINIUM SCAFFOLDING SYSTEM

- Scaffolding Width : 1350mm and 1900mm
- Scaffolding Length : 1800mm, 2500 and 3000mm
- Working Height : 13400mm and 30400mm
- Antiskid Platform and stairways designed for elevated working area.

### Features:

- Proper & safe working platform
- Eliminate high risk operation
- Easily movable from one to another place.

### Application:

- Ideal For high reach operation

## CANTILEVER ALUMINIUM SCAFFOLDING SYSTEM

- Cantilever Width : 750mm
- Cantilever Length : 1800mm, 2500mm, 3000mm
- Working Height : 8600mm, 6650mm

### Features:

- Allows increased platform width
- Access to out of reach areas
- Simple connection to tower

### Application:

- Cantilever scaffolding system is being used to fill the gap between the scaffold and structure.

## New Age Construction Equipment Engineering Company

Survey No. 275, Plot No. 4-B, Galaxy Industrial Estate,  
Shapar (Veraval) Dist. Rajkot-360 002, Gujarat, India.
